experience

No Desk Project, UX Design Lead

Aug 2018 – Feb 2019

Redesigned entire Jobs Board to better experience for job seekers and employers.

Worked closely with management to design wireframes and mockups, focusing on the Affiliate and Team pages.

Implemented intuitive design workflows and polished existing UI with best practices.

Researched design standards and suggested enhancements to engineering team.

CAIDA, Webmaster Assistant

Aug 2017 – Oct 2017

Researched and indexed CAIDA papers, creating files in YAML format and integrating files into CAIDA database.

Utilized HTML/CSS to maintain pages with lists of papers using CAIDA data.

projects

Guiltea Cravings Website

Worked as a designer & developer to build a redesigned website for a San Diego boba shop.

Applied interviews with the client and users, competitive analysis, user testing, wireframing, iterations.

Implemented site utilizing JavaScript, HTML/CSS along with JavaScript plugins and APIs.

Flow by Halo

Developed an interactive high-fidelity prototype that cultivates accountability and collaboration within a group.

Facilitated technology implementation, using tools such as Sketch and InVision.

Incorporated the design process with user research, storyboarding, wireframing, usability evaluation, and iterations.

Explore SD

Utilized HTML5, CSS3, JavaScript to create a web app focused on a map feature that allowed users to plan an itinerary for visiting San Diego.

Worked primarily on the client-side with the UI in the main screens of the app, and used the Leaflet API and jQuery among other tools to create the map, custom markers, and routing feature.
