experience

No Desk Project, UX Design Lead
Aug 2018 — Feb 2019
• Increased job applications by 25% after the first month by redesigning entire Jobs Board to better experience for job seekers and employers; utilized personas, storyboarding, wireframing through Sketch and InVision, and began implementation with HTML/CSS and JavaScript.
• Created wireframes and mockups through Sketch and InVision, focusing on the Affiliate and Team pages. Designed the Affiliate page with conversion funnel in mind.
• Implemented intuitive design workflows and polished existing UI with best practices.
• Researched design standards and suggested enhancements to engineering team.

CAIDA, Webmaster Assistant
Aug 2017 — Oct 2017
• Researched and indexed CAIDA papers, creating files in YAML format and integrating files into CAIDA database.
• Utilized HTML/CSS to maintain pages with lists of papers using CAIDA data.

projects

Guiltea Cravings Website
• Worked as a designer & developer to build a redesigned website for a San Diego boba shop.
• Applied interviews with the client and users, personas, storyboarding, competitive analysis, user testing, wireframing, iterations.
• Created hi-fidelity prototypes through Sketch and InVision.
• Implemented site utilizing JavaScript, HTML/CSS, Bootstrap along with JavaScript plugin Instafeed and Google Maps API.

Flow by Halo
• Developed an interactive hi-fidelity prototype that cultivates accountability and collaboration within a group.
• Facilitated technology implementation, using tools such as Sketch and Modao for hi-fidelity prototypes.
• Conducted rapid prototyping based off feedback from users.
• Incorporated the design process with user research, storyboarding, wireframing, usability evaluation, and iterations.
